

# Product Highlights

Things to keep in mind as you experience Rachio.

## Easy Installation

Replace your current controller within 30 minutes. Works with any sprinkler system, with no special tools or expertise required, and connects with your home Wi-Fi.

## Weather Intelligence™

Waters automatically based on past, present, and future weather plus real-time and forecast rain delays. No need to worry about updating schedules.

## Custom Fit to Your Yard

Enter your specific plant and soil types to get a tailored watering schedule.

## Remote Control

Start, stop, and change your sprinklers directly from your phone or computer.

## Connects to the Smart Home

Integrates with Nest, Amazon Alexa, Google Assistant, IFTTT, Wink, Control4, Nexia and other top tier home automation systems for expanded functionality.

## Control from the Device

Manual access on the box for local control, and LED lights that give a visual indication of what's happening.

## Additional Features

- ✓ Real-Time Notifications and Water Usage Reports
- ✓ EPA WaterSense Certified & SWAT Tested
- ✓ Use Personal Weather Stations and Rain Sensors
- ✓ Optional Customized Outdoor Enclosure
