

GARDEN IN A BOX 2018
REUSE & RECYCLING for pots and flats

This form is intended to provide additional reuse and recycling resources for plastic pots and flats once you finish planting your Garden In A Box.

REUSE: Reuse your pots in your garden or share them with a friend in need! Pots and flats should be cleaned and sterilized before each new gardening season to prevent the spread of plant disease.

➤ **Scrub off dirt and grime with soapy water, and sterilize your plastic pots in one of the following ways:**

Option 1: Soak in a mixture of 1-part household bleach and 9-parts water for 10 minutes. Rinse and allow to dry.

Option 2: Soak in a 3% hydrogen peroxide solution for 20 minutes (the brown bottles commonly found at the drugstore are 3%). Allow to dry.

Option 3: Soak in a mixture of 1-part vinegar and 3-parts water for 10 minutes. Rinse and allow to dry.

Option 4: Spray with white vinegar, wipe off with a clean rag, rinse and allow to dry.

RECYCLE: If you are no longer using your pots and flats, bring them to one of these locations. Contact companies directly for more details and further instructions.

1. Harlequin's Gardens

4795 N 26th St.
Boulder, CO 80301
(303) 939-9403
