** Discover professionals in your area who can assist with your landscape projects.*

www.alcc.com

Drip Works

** Get advice from the experts on drip system conversion, installation, and maintenance.*

1-800-522-3747

www.dripworks.com

LANDSCAPE SERVICES

Average Cost for 200 sq. ft. Area

- **Sod (Turf) Removal and Disposal** – Pricing is typically by the square foot or by the hour. It includes mobilization, plus the removal and disposal of sod. The price does not reflect any additional work such as soil amendments or edging.
Cost: \$500 - \$1,000
- **Irrigation Conversion** – The price of converting a traditional sprinkler system to drip is typically dependent on the number of zones being converted.
Cost: \$480 - \$950
- **Landscape Consultation** – Price includes an onsite consultation and plant specific design.
Cost: \$300 - \$750

***Prices may vary. Landscape companies typically require landscape assessment prior to quoting a price.**

***To find a landscape professional in your area, visit www.alcc.com/find-a-landscape-professional**

DISPOSAL PROCESS

Please dispose of your sod using one of the following methods.

*1 ton is approximately 300 sq. ft. of cut sod.

- **Compost it at home in your landscape!** – Flipping over sod can make for a great planting surface somewhere else in your landscape! *Make sure that your grass does not have thatch build up, as this is not good to plant in (nutrient imbalance, invasion of insects, etc.).*
- **Craigslist** – Post it on craigslist. People will often incorporate disposed-of sod into their lawns.
- **NextDoor** – Post it on NextDoor. People will often incorporate disposed-of sod into their lawns.
