

Six Pack: Grasses

Plant as you wish! Plant-by-number design not included.

Looking to just fill a few empty spots in your low-water garden? These lush, hardy grasses will complement any landscape or garden project! This six pack includes the beautiful blue-green of Blue Fescue mixed with the unique horizontal seedhead tufts of the Blue Grama Grass. The blue-green stems of the Little Bluestem grass turn a rich mahogany red in the winter, maintaining their color throughout the colder months. Enjoy these engaging grasses all season long!

Full sun exposure
(requires a minimum of 6 hrs of direct sun per day)

Blooms summer to fall

Low water needs

Hardiness maximum of 8,000 ft.

Individual Plant Information

N indicates a native plant

BLUE GRAMA GRASS - *Bouteloua gracilis* **N**

QTY. 2

This Rocky Mountain native grass has “eyelash-like” spikelets that grow horizontally on its stems. ‘Blue Grama’ stays colorful through the fall season.

Mature height 1-2'
Mature spread 1-2'

Full sun

Very low water needs

Blooms summer to fall

Attracts birds

CARE: Easily grown in well-drained soils when planted in full sun. It is considered a short-lived perennial that typically survives 4-6 years, but it will spread by seed. Rudbeckia plants that become taller or bushier than desired can be cut back to 6" to generate fresh growth and maintain size.

BLUE FESCUE - *Festuca glauca*

QTY. 2

A unique icy blue clumping grass that holds up through the heat of the summer producing tan plumes when flowering.

Mature height 6-10"
Mature spread 6-8"

Full sun

Low water needs

Blooms midsummer

Attracts birds, butterflies

Resists deer

CARE: A semi-evergreen grass that is drought tolerant once established. Thrives in poor to average soils.

LITTLE BLUESTEM GRASS - *Schizachyrium scoparium* **N**

QTY. 2

This native grass' kaleidoscope of color starts as blue-gray pastels in the summer and exhibits bronze tones in the fall with white fluffy seed heads.

Mature height 3-4'
Mature spread 24-30"

Full sun

Low water needs

Blooms fall

Attracts birds

Resists deer, rabbits

CARE: This highly adaptable grass is tolerant of sunbaked locations and poor soil of all varieties, but is ill-suited for shady, wet soils, which will lead to poor structure and floppy growth.

Plant Maintenance by Season

| MAINTENANCE TASKS | PLANT |
|--|--|
| SPRING (AFTER FIRST GROWING SEASON) | |
| Cut back old growth or winter damage to 4 inches before new growth begins to show. | Blue Fescue, Blue Grama Grass, Little Bluestem Grass |
| Divide mature plants in early spring every 3 years, as needed. | Blue Fescue |
| FALL | |
| Leave last blooms to self-seed and/or feed the birds come winter. | Blue Fescue, Blue Grama Grass, Little Bluestem Grass |
