

GROW YOUR IMPACT

Certify your yard!

The plants in Garden In A Box kits aren't just eye-catching, water-wise alternatives to traditional lawns, they also create vital habitat for Colorado's native birds, pollinators, and beneficial insects. Want to deepen your yard's impact? Certify your yard through one of these recognized certification programs! Certification celebrates your commitment to biodiversity, acknowledges your yard as a haven for wildlife, helps inspire your neighbors, and connects you to a growing community of like-minded gardeners making a difference across the state and nation!

Click the program links to learn more about steps towards certification.

Audubon Rockies - [Habitat Hero Program](#)

Create a bird-friendly garden and become a Habitat Hero! Tiered statuses recognize different levels of impact, allowing any gardener to earn a certification!

WildOnes Front Range - [Certified Native Habitat Program](#)

WildOnes members can earn the Native Habitat Certification simply by committing to growing native plants with regenerative gardening practices. Join WildOnes as they work to certify 5,000 gardens nationwide!

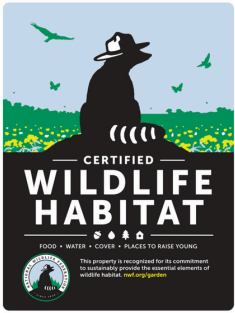

Colorado Native Plant Society - [Certified Native Plant Garden Program](#)

The ultimate Colorado native garden certification from the local experts. Craft a garden that supports birds and pollinators year-round to earn the Certified Native Plant Garden certification.

RESOURCE
central

CONSERVATION MADE EASY

National Wildlife Federation - [Certified Wildlife Habitat](#)

Join a national movement working to encourage others to create habitat for native wildlife. The National Wildlife Federation's certification program shows your commitment to supporting wildlife and pollinators

N. American Butterfly Association - [Butterfly Garden Certification](#)

Join thousands of others nationwide in supporting our native butterflies and caterpillars. The Butterfly Garden Certification recognizes gardens that provide important resources for both butterflies and caterpillars!

Monarch Waystation Program

Monarch Watch - [Monarch Waystation Program](#)

The iconic Monarch Butterfly migration is under threat as more and more habitat is lost. Support our country's most iconic pollinator by cultivating your very own Monarch Waystation!

Friends of Coal Creek - [Certified Habitat Program](#)

Friends of Coal Creek is working to create inter-connected pollinator habitat along the Coal Creek corridor. Certification available to residents in Superior, Louisville, Lafayette, and Erie along Coal Creek

Pollinator Partnership - [Bee Friendly Gardening](#)

Members of Pollinator Partnership's Bee Friendly Gardening network get access to gardening resources, monthly newsletters, exclusive webinars, and more! Plus, members can register their very own pollinator friendly garden, certifying their positive impact!
