

HELPING COMMUNITIES SAVE WATER

Conservation nonprofit **Resource Central** is partnering with us to help homeowners associations (HOAs) and large, complex communities transition to waterwise landscaping. Apply for one of these two programs to **increase your community's water conservation impact** with data-driven guidance, planning support, and implementation, resulting in **meaningful water savings**.

HOA Turf Conversion Consultation

- Replace nonfunctional turf with a beautiful landscape that saves water and supports local pollinators
- Gain expert guidance and project support from start to finish
- Receive a grant upon project completion

Large Property Water Assessment

- Get clear insights about your property's current water use with data-driven analysis
- Drive confident decision-making for the best return on investment
