

HELPING COMMUNITIES SAVE WATER

Is your homeowners association (HOA) or large property ready for meaningful outdoor water savings, but not sure where to begin? Get started with a **Large Property Water Assessment!** Our partner, **Resource Central**, will provide a detailed assessment of your property's water use that helps you make smart, informed decisions with the best return on investment.

The program is designed with complex landscapes in mind, anchored by a thorough, data-driven analysis. Assessments are **free to a limited number of HOAs**.

Property Benefits

- Get clear insights into your property's current water use with data-driven analysis.
- Receive education and practical guidance to improve water efficiency
- Gain confidence to direct your resources toward improvements yielding the best return on investment.
